Career Paths																		
Career Path The Career Path gives the student increased job security through connections and partners of Keilir Aviation Academy. The Career Path is a form of a continuous assessment that begins on day one, and follows the student throughout the course of training. Successful candidates will continue training towards a selected available career path. The career paths available are subject to partner operators available and operator demand at any given time. These options are subject to change.							Flight Instructor Over 150 hours of hands-on instructor training							 Flight Instructor at Keilir Aviation Academy or affiliate schools Once the student meets airline requirements, the student will be eligible to continue on new career paths				
							Boeing 737 or 757 pilot MCC - JOC and Type Rating on type							 First Officer position with Icelandair flying the Boeing 757, 767 or 737				
The Career Path Financing Financing options of career path vary according to the options chosen in partnership between the operator and the candidate and will vary. The student can commit to any of the available career paths available once having successfully completed the assessment program.

1. Confirmation Fee

Payable upon signing the training agreement.

Both school and student commit to the training and payment plan.

2. School Fee

Payable 2 weeks before school start

At this point, the student is fully committed to the course and subject to non-refundable termination fee of 6.000€

3. School Fee

At this point, the student should have completed minimum FEIN units to be eligible for financing with LÍN and Framtíðin

The financing options exceed the school fees at this point, which allows the student to refinance the first payment and living expenses

4. School Fee

Framtíðin can cover the entire last amount of the payment plan

Career Paths such as the Icelandair Cadet Program may help finance the program as well
